

[Serious games](#) such as [America's Army](#) , [Wii Fit](#) , and [Microsoft's Flight Simulator](#) are used to teach people skills rather than for recreation. They can be used to teach just about anything you can think of, and has been a growing movement for some time. Our stroke rehabilitation program utilizes many aspects of serious games, and will include games as a part of the final product.

[Two games](#)

were developed which mimic Wii Fit games for later use.
